

May 15, 1975

SPEAKER: Senator Keyes.

SENATOR KEYES: Mr. Speaker, where is the bill right now? Is it on its way over to the Governor? When are the bills ordinarily sent over to the Governor? Passes we've got them . . . All bills that are signed now . . . that are passed by the Legislature are being expedited and sent over to the Governor? Alright and he asked unanimous consent and he didn't get it? Mr. President, I think it's time . . . I move we adjourn for the night, until tomorrow morning at 9 o'clock.

SENATOR SAVAGE: Mr. Speaker.

SPEAKER: Mr. President, members of the Legislature, this is not an unusual or unfair request to hold 123 and make that deliberation at that time. We have collectively, this morning without my vote or my support, determined that we will take 567 up at this time. I'll abide by that order and I would hope that bill will be discussed this evening before we adjourn. It's very very important. There are many people who have bills up here. Those of you . . . Senator Barnett is very very fair. He says I've held my bill. Now I want to help the others get their bill. I'm not going to ask for any more time than it takes to discuss 567 this evening. When we do adjourn at that time we will then convene tomorrow morning for two hours of Final Reading and two hours of Final Reading in the afternoon. In the intervening time there's nothing on Select File. We can discuss that package of bills that's on the Speaker's order. I've been with Emory Burnett a few moments ago and asked him if he could still expedite the work of these bills and work on them tomorrow yet. He said he'd have to work on Saturday and Sunday. I said this is what we expect of you. He does have them extra days to do this other work after they leave General File. I hope we do not adjourn at this time. I hope we can discuss 123 tomorrow forenoon.

SENATOR SAVAGE: Unless Senator Keyes wishes to withdraw his motion I have to take a vote on this question.

SENATOR KEYES: Mr. Speaker, I'd like to ask Senator Jules Burbach a question.

SENATOR SAVAGE: Go ahead.

SPEAKER: Surely.

SENATOR KEYES: Senator Burbach, if we discuss 567 are you going to keep quiet about 123, or are you going to continue to harp on it until you get it back?

SPEAKER: Well listen I tried to do it and had the Clerk read it in. I don't want to harp on it, but as long as the question is on the floor I've got . . .
